DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Teronai et al.

Regarding claim 1, Teronai et al discloses on figure 1 a semiconductor device comprising an anode driver 2 and a cathode driver 5 laid out equally in a chip; and memory portions connected to the drivers, each memory portion arranged equally in the vicinity of each of the driver, wherein the semiconductor device is made in one chip with the drivers and memory portions.

Regarding claims 2-7, Teronai et al discloses on figure 1 all the structures set forth in the claimed invention.

Art Unit: 2815

Claims 8-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Minami et al.

Minami et al discloses on figure 15 a semiconductor device for drivers made in one chip comprising output regions corresponding to one bit arranged to constitute output bit group, wherein a plurality of the output groups are arranged at periphery in the chip.

Regarding claims 9-17, Minami et al discloses on figure 15 all the structures set forth in the claimed invention.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US Patent 6198128 B1 to Asakura et al disclose a semiconductor device.
